## Würth Electronics – Product Spotlight

### WR-WST: REDFIT IDC SKEDD Connector

Würth Electronics **REFFIT** IDC connector is a solderless reversible direct plug-in connector with SKEDD technology and insulation displacement connection. The SKEDD contacts are plugged directly into the plated through-holes of a PCB. With this IDC connector a complete part and a potential error source is eliminated. This results directly in high process reliability, savings in space, material and process costs.

#### Characteristics:

- SKEDD Direct Plug-In Technology
- IDC Connection
- Solderless Solution
- Simple to Plug & Unplug
- Minimum of 10 mating cycles
- Reverse polarity protection

#### Applications:

- Consumer Electronics
- Solar Industry
- Industrial Electronics
- Mechanical Engineering
- Switch Board Construction
